Delo connection manager

a new way to have meetings

Delo connection manager is an innovative screen sharing hub with integrated charging, cable management and control of the meeting room equipment. It will help to create a seamless meeting experience for all participants without the need for software installations, cable adapters or power supplies. Simply plug in the USB-C cable to your device and press a button to start sharing and take control of room equipment such as camera, speakers and microphones. Up to 4 people can connect and charge at the same time and it is easily installed in BYOD rooms as well as MTR/Zoom/Google rooms. Always a reliable connection, fully powered laptops and a clutter free table!

Vivid and helpful colors

Bright and vivid colors guide you during the meeting. In combination with the touch controller it allows the connected participant to control and switch who is sharing their screen and has control of the connected In-room equipment such as cameras, microphones and speakers.
